PROCESS ARCHITECT | RPA STRATEGIST | TECHNICAL LEADER

Automation Process Architect with 8+ years of experience leading **enterprise automation projects** and **business process optimization** across finance, government, healthcare, IT, and energy. Proven expertise in **Robotic Process Automation (RPA)**, **UiPath**, **Hyperautomation**, and **Center of Excellence (CoE)** enablement. Adept at driving **intake process design**, **process re-engineering**, and **automation governance** to deliver measurable outcomes. Recognized for strong communication, motivation, and creative leadership in fostering engagement, relationship building, and a collaborative sense of community within automation programs.

CORE COMPETENCIES

- **Automation Architecture:** UiPath Studio, Orchestrator, Automation Cloud, Test Suite, Alteryx
- **Process Optimization:** Business Process Improvement, Process Gaps Analysis, Process Re-engineering
- **Automation Project Management:** Intake Process, Solution Approach, Pipeline Development, Deliverables
- **Center of Excellence (CoE):** Governance, Program Awareness, Stakeholder Engagement
- **Testing & Support:** UAT, Test Case Creation, Post-Go-Live Support (Hypercare)
- **Communication & Leadership:** Motivation, Relationship Building, Creative Problem Solving, Participation
- **Project Management Tools:** ADO, Jira, Confluence, Google Workspace, Microsoft 365
- **Languages & Tools:** VB.NET (UiPath), Python, C#, Java, JavaScript, SQL, PowerShell, Selenium, Tableau

PROFESSIONAL EXPERIENCE

Senior Intelligent Automation Consultant – INVOKE Public Sector

Jan 2026 – Present

- Delivered high-stakes DoD automation projects as a civilian contractor with the US Air Force.
- Designed and implemented PHI-sensitive UiPath Document Understanding and IXP projects for a national healthcare client.

Automation Engineer (Contract) – Stefanini Group / US Federal Reserve IT

Feb 2025 – December 2025

- Served as **Process Architect** within a unified **Center of Excellence (CoE)** supporting automation initiatives across multiple Federal Reserve Banks.
- Led **automation project intake processes**, ensuring clear documentation, alignment, and prioritization of business needs.
- Collaborated with **Business System Analysts** and stakeholders to identify **process gaps**, streamline workflows, and deliver high-impact automations.
- Oversaw **UAT**, managed **test cases**, and provided **post-go-live support** to ensure solution quality and adoption.

Manager, Automation Engineer – CapTech Consulting

Jan 2024 – Feb 2025

- **Led RPA strategy** and **testing infrastructure design** for a national energy client.
- Built and deployed UiPath **Test Suite architecture** and associated governance frameworks.
- Delivered **technical consulting**, **development**, and **automated CI/CD deployment** of RPA solutions.
- Facilitated **discovery**, **assessment**, and **implementation roadmaps** with client stakeholders.

Senior RPA Developer, Partner Enablement – UiPath

Dec 2021 – Jan 2024

- Acted as **technical advisor** to global consulting firms (Deloitte, Accenture, Capgemini, etc.).
- Supported **solution design, cost estimation, and infrastructure recommendations**.
- Designed scalable architectures for **UiPath Orchestrator**, assets, queues, and licensing.
- Led **instructor-led trainings** on Document Understanding, AI Center, and Communications Mining.
- Delivered enablement on **PDD creation, test case documentation, and UAT facilitation**.

RPA Developer II, Technical Services – UiPath

Apr 2019 – Dec 2021

- Led development of high-impact automations across healthcare/medical, IT, finance, and telecom.
- Delivered **hands-on solution design**, training, and deployment in client engagements.
- Spearheaded **internal code review** processes to enforce RPA development standards.
- Founded internal **Mentors' Circle program**, strengthening UiPath's technical mentorship.
- Taught Advanced RPA Developer and Document Understanding courses via instructor-led training.

RPA Developer (Contract) – ClearPath Workforce Mgmt. / UiPath

Nov 2018 – Apr 2019

- Developed and deployed automations across finance and IT for a global energy client.
- Drove **capability uplift** via pair-programming and modular design workshops.
- Partnered with regional CoEs to improve automation quality and sustainability.

EDUCATION

Bard College – Annandale-on-Hudson, NY

Bachelor's degree in Computer Science, Concentration in Experimental Humanities

Aug 2014 – May 2018
